

WorkPlace Wednesday: Episode 4

Realise the potential of Paramount WorkPlace Procurement, and its capability with Expense and Mobile

WorkPlace, by Paramount Technologies, is an eProcurement suite with seamless out-of-the-box integration with Microsoft Dynamics GP. It solves the common problem of delays encountered in paper-based or Excel/email requisition and approval processes.

It is a vital add-on for ANY Dynamics GP solution. And yet, our expert consultants confirm that not only are there still organisations out there not utilising Paramount WorkPlace, those that are may not be using it to its full and potential!

We want to change that!

In Episode 3 of our Paramount WorkPlace webinar series, we will be focussing upon:

EXPENSE

Google maps and mileage.

MOBILE

Submit a reimbursement.

Add **WORKPLACE WEDNESDAY'S** to your calendar and discover the intricacies of this solution and what it can do for you and your organisation!

Attend this webinar to learn more about the extension you MUST consider, Employee Expense. We will focus on some of the key elements included within the Expense Module, with specific items and functionality being presented to include:

- OCR on your mobile to capture your receipts.
- Importing company credit card transactions.
- Split lines for FBT reporting.
- Track expenses against events including attendee details.
- Create, approve, and view expense history, all via your mobile.

Implement the Employee Expense module within your WorkPlace solution to add a new dimension to your overall system!
