

Professional Advantage's

Business Central User Group

Wednesday 10th May
12:30 PM - 1:30 PM (AEST)

pa.com.au/events

Hi Emma,

We are pleased to invite you to attend the second **Dynamics 365 Business Central User Group of 2023**, taking place on **Wednesday 10th May**.

We would like to extend this opportunity to you to contribute to the content of future group meetings by sharing your valuable experiences and expertise.

At our previous meeting, we introduced an engaging icebreaker called "The Elevator Pitch," which received positive feedback from attendees who shared their experiences with Business Central.

Some attendees have seen the positive side of this, so we will be conducting this activity again, ensuring those unable to participate last time can also have their turn.

Greg Long, Senior Consultant at Professional Advantage, will be joining us to discuss his use and experience of Power BI with Business Central.

We will also provide an overview of the upcoming features in the Business Central 2023 release wave 1.

As before, we will be using Microsoft Teams for the User Group. We encourage you to turn on your camera during the session and have your logos as your backdrop.

If you have any particular questions or queries that you would like addressed, please reach out to our host **Keith Asher** with your questions: keith.asher@pa.com.au
